

I strongly encourage you to vote against HR 4026 because our public airwaves should be open to all. Everyone in the United States has a right to get information such as the current weather, traffic and road conditions and other such vital information whenever and wherever they are in the United States. In this time of realistic terrorist threats, massive flooding, tornados and other natural disasters we have the right to get information that will help us protect ourselves against these threats.

PLEASE vote NO on HR 4026 and protect all citizens of the United States with vital information that we deserve to know about.

Thank you very much!

Ron Poprosky
